Another 1s Introduced.

Washington, April 10.—Three resolutions providing for the direct election of Senators by the people have been introduced in the House of Representatives since the opening last Tuesday of the Sixty-second Congress. The third of these was introduced to-day by Representative Beall, of Texas, Representatives Bulzer, of New York, and Cooper, of Wisconsin, were the authors of the first two.

To Prohibit Liquor Shipments.
Washington April 10.—Representative Webb, of North Carolina, to-day introduced a bill making unlawful the shipment of intoxicants of any kind from one State or Territory into another State or Territory, provided such shipment is contrary to the law of the State or Territory into which it is made.

Washington, April 10.—In accordance with the notice he gave on the first day of the present session of Congress, Sonator Bailey to-day proposed certain changes in the Senate rules, which would permit the Senate to meet daily still 2 o'clock instead of at 12 o'clock. The proposed changes are to be printed and laid on the tabl.

Shator Bailey intends to urge this overturning of Senate precedents in a speech on the floor of the Senate within a short time. The change has been investigated by a subcommittee of the Committee on Rules, of which Senator Bailey is a member, and it is understood it is ready to report.

Grand Jury To-Day Will Begin Consideration of Alleged Gambling at Track.

[Special to The Times-Dispatch.] Norfolk, Va., April 10.—The Norfolk county grand jury, in session to-day, postponed the consideration of the alleged gambling at the Jamestown race-track until to-morrow, when it is understood that a number of witnesses called will be examined. There was no interference with the races today, and it is not believed in Norfolk that there will be any. Those interested in the meet are confident tonight that no violations of the laws of the State will be shown.

Governor Maun Silent. Governor Mann declined last night to discuss the correspondence which is said to have passed between him-self and Judge Joseph T Lawless, of the Circuit Court of Norfolk county. The Governor seemed interested in developments in the racing situation, but declined, also, to discuss the report that he requested Judge Lawless to appoint another justice of the peace in Norfolk county to hear possible fu-ture cases sgainst accused bookmak-

The executive, however, denied that had instructed Judge Lawless to take such action, as reported in The Times-Dispatch yesterday. "I am sure," he said, "that the reporter did not mean to create a wrong impression, but he did not correctly report me. I never instructed Judge Lawless to do anything; have no power to do so, and would not presume to instruct him or any other judge as to anything con-nected with the discharge of any of his official duties." Governor Mann thought the use of the word "instruct-ed" had done injustice both to Judge Lawless and to himself. The reports sent out generally from Norfolk have used the word "requested."

"Because of other criminal matters taking precedence, witnesses summoned before a special grand jury in Norfelk county to-day to testify to alleged violations of the anti-betting laws at the Jamestown Jockey Club's miorrow." (Contined From Contined From March 1988) race track, were adjourned until to-morrow. Indge Lawiess said the jury was summoned at the Governor's in-stance, and he gave them an analysis of the race track law, prepared by himself. Both Judge Lawless and Govto try race track test cases.

UNION INDORSES

Ministers Approve Objects of Patriotic Temperance Federation.

At the weekly meeting yesterday of the Ministerial Union of Richmond, a resolution was adopted endorsing the objects of the Patriotic Temperance Federation, a recently organized asso-clation for furthering the interests of

the anti-liquor faction.

A paper from the federation, signed by a committee composed of Rey. H. D. C. Maclachlan, D. D., president; G. M. Smithdeal, F. L. Costenbader, W. L. Smith, S. L. Ledman and Tilden Scherer was presented in the meeting by Secretary J. J. Scherer. tary J. J. Scherer.

Upon motion of Rev. D. Clay Lilly,
D. D., pastor of the Grace Street Presbyterian Church, a resolution was
adopted expressing the sympathy of
the union with the objects and purposes of the federation.

The paper submitted for the indorsement of the ministers was as follows:

"In accordance with instructions

ment of the ministers was as follows;
"In accordance with instructions unanimously passed by the "Patriotic Temperance Federation" at its meeting on Friday night, April 7, 1911, the undersigned committee begs leave to bring to your attention the work in which that body is engaged and earnestly desires to enlist your sympathy and aid in furtherance of its efforts.
"This federation has for its object

"This federation has for its object the bringing together of all organi-zations and individuals interested in the elimination of the liquor traffic in an effort to secure the qualification for the ballot of all citizens whose support might be safely counted upon in any election in which this issue may be involved. The federation does not undertake

or demerits of any specific method of handling the liquor problem, nor does it undertake to force an issue at the ballot box along any particular line. But the promoters of the organization feel that once the Christian and moral element of our citizenship has been duly qualified to exercise the right of suffrage, it can be depended upon whenever such issue is drawn, to supwhenever such issue is drawn, to sup-port the general objective of this or-ganization, namely, the elimination of the liquor traffic.

Not Time to Question Action.
[Special to The Times-Dispatch.]
Washington, D. C., April 10.—Congressman Flood, of Virginia, the ranking member on the Foreign Affairs Committee, after seeing the President to-day, said he did not think that any secret treaty between Japan and Mexico, or the attitude of the Mexican government towards Japan, had anything to do with the mobilization of troops near the Mexican border by President Taft. He believes that other causes brought about the action of the President.

dent.

There is a strong feeling among members of Congress, so Mr. Flood says, that nothing should be done to embarrass the President in reference to this matter until all danger of trouble between this country and Mexica is passed. Some contend that the President made a mistake in sending the troops to Texas or near the Mexican border, but now is not the time to question his action or to call for his reasons, as it might result in causing trouble between this government and the Mexican government and might result in war between the two countries.

Offer Fortune for Ammunition.

New Orleans, April 10.—Twenty thousand dollars will be paid for the delivery in Mexico, at a point between El Paso and Chihuahua, of a consignment of \$70,000 worth of ammunition for the Mexican revolutionists. Many experienced in the revolutionary game in New Orleans have never had serious trouble in getting guns and ammunition to Central American countries by steamer, but they are without experience in overland shipments, and the agent of the junta was unable to make satisfactory arrangements for the movement of the ammunition.
